

LORNA TRIAL

Electronic Case Report Form (eCRF)

Long-term Outcomes and Response Assessment of a Novel Agent (LORNA) Trial

Phase II | Randomized | Double-blind | Placebo-controlled | Approximately 300 participants

Study	LORNA	Protocol	DLF552
NCT	NCT00001240	Protocol version	v1.0
Site		Subject ID	
Randomisation no.		CRF version/date	07-SEP-2026

Instructions for electronic data entry

- Enter data directly from source documentation. Dates use DD-MMM-YYYY unless the EDC configuration specifies otherwise.
- Use one record per event/medication/assessment where applicable. Do not overwrite prior entries; use the EDC audit trail for corrections.
- Fields marked Required are mandatory when the corresponding form is applicable. Conditional fields should appear only when triggered by the preceding response.
- Adverse events are collected from first study intervention administration through follow-up; pregnancy and other reportable safety events follow the protocol reporting requirements.
- The treatment assignment should remain blinded to blinded study personnel. The eCRF should display treatment information only to authorized unblinded users.

Visit schedule

Visit	Target timing	Key procedures
1 – Screening	Day -14 (within screening window)	Consent; eligibility; demographics; medical history; concomitant medications; vital signs; screening labs
2 – Baseline/Randomization	Day 1	Baseline vital signs; ALT/AST/CRP/HGB; randomization; first dose
3 – Week 4	Day 29 (+/- 5 days)	Study intervention; vital signs; labs; AE review
4 – Week 8	Day 57 (+/- 5 days)	Study intervention; vital signs; labs; AE review
5 – Week 12	Day 85 (+/- 5 days)	Final study intervention; vital signs; labs; AE review
6 – Follow-up	Day 113 (+/- 5 days)	Vital signs; labs; AE review; end-of-study procedures

1. Screening/informed consent

Field	Entry / response	Requirement/edit check
Screening date	___ / ___ / ___	Required
Written informed consent obtained?	☐ Yes ☐ No	Must be Yes before study-specific procedures
Date informed consent signed	___ / ___ / ___	Required if consent = Yes
Person obtaining consent / initials	_____	Required
Eligibility assessment completed?	☐ Yes ☐ No	Required

2. Eligibility checklist

No.	Inclusion criterion	Response	Comment
1	Age 18–85 years at informed	☐ Yes ☐ No	

	consent		
2	Any sex or gender identity eligible	☐ Yes ☐ No	
3	Documented chronic liver disease requiring ongoing medical management	☐ Yes ☐ No	
4	Permitted/stable background therapy where applicable	☐ Yes ☐ No	
5	Screening laboratory results acceptable per protocol	☐ Yes ☐ No	
6	Baseline vital signs clinically acceptable	☐ Yes ☐ No	
7	Able and willing to comply with study procedures	☐ Yes ☐ No	
8	Written informed consent obtained before study-specific procedures	☐ Yes ☐ No	

No.	Exclusion criterion	Response	Comment
1	Significant uncontrolled medical condition affecting safety or interpretation	☐ Yes ☐ No	
2	Acute liver failure, decompensated cirrhosis, planned transplant, or rapidly progressive liver disease	☐ Yes ☐ No	
3	Clinically significant hepatic impairment/protocol-defined ALT or AST abnormality	☐ Yes ☐ No	
4	HGB below protocol-defined safety limit/clinically significant hematologic abnormality	☐ Yes ☐ No	
5	Active systemic infection or uncontrolled inflammatory disorder likely to affect CRP	☐ Yes ☐ No	
6	Recent major cardiovascular event/unstable cardiovascular disease	☐ Yes ☐ No	
7	Recent stroke event or instability requiring acute management	☐ Yes ☐ No	
8	Prohibited investigational drug/therapy or recent interventional trial	☐ Yes ☐ No	
9	Major changes in background medications during screening	☐ Yes ☐ No	
10	Pregnancy or breastfeeding	☐ Yes ☐ No	
11	Failure to meet reproductive contraception requirements where applicable	☐ Yes ☐ No	
12	Substance abuse or condition impairing adherence	☐ Yes ☐ No	
13	Any condition preventing reliable completion of required study procedures	☐ Yes ☐ No	

Eligibility outcome: ☐ Eligible ☐ Not eligible ☐ Pending review Investigator initials/date: _____ / _____

3. Demographics

Field	Entry
Date of birth/age	Age: _____ years Date of birth: ____ / ____ / ____ (if collected by EDC policy)
Sex	☐ Male ☐ Female ☐ Intersex ☐ Not specified ☐ Unknown
Race	☐ White ☐ Black or African American ☐ Asian ☐ American Indian/Alaska Native ☐ Native Hawaiian/Other Pacific Islander ☐ Other

	☐ Unknown
Ethnicity	☐ Hispanic or Latino ☐ Not Hispanic or Latino ☐ Unknown
Country	USA

4. Medical history

Record clinically relevant medical history present at screening. Conditions present at screening are baseline conditions and should not be entered as AEs unless they worsen during the study.

Condition/diagnosis	System	Start date	Ongoing?	Details/comments
_____	_____	___/___/___	☐ Yes ☐ No	_____
_____	_____	___/___/___	☐ Yes ☐ No	_____
_____	_____	___/___/___	☐ Yes ☐ No	_____
_____	_____	___/___/___	☐ Yes ☐ No	_____

5. Concomitant medications

Record prior and concomitant medications, including permitted background therapy and any medication changes. The study dataset contains examples including lisinopril, metformin, and simvastatin.

Medication	Indication	Dose	Unit	Form	Frequency	Route	Start date	Stop/ongoing
_____	_____	_____	mg	_____	☐ QD ☐ BID ☐ Other	☐ Oral ☐ Other	___/___/___	___/___/___
_____	_____	_____	mg	_____	☐ QD ☐ BID ☐ Other	☐ Oral ☐ Other	___/___/___	___/___/___
_____	_____	_____	mg	_____	☐ QD ☐ BID ☐ Other	☐ Oral ☐ Other	___/___/___	___/___/___

6. Vital signs

Record measurements at each scheduled visit. Measurements should be obtained before study intervention whenever feasible.

Parameter	Unit	Screening	Baseline	Week 4	Week 8	Week 12	Follow-up
Systolic BP	mmHg	_____	_____	_____	_____	_____	_____
Diastolic BP	mmHg	_____	_____	_____	_____	_____	_____
Heart rate	bpm	_____	_____	_____	_____	_____	_____
Respiratory rate	breaths/min	_____	_____	_____	_____	_____	_____
Temperature	°C	_____	_____	_____	_____	_____	_____
Weight	kg	_____	_____	_____	_____	_____	_____

7. Laboratory assessments

Central laboratory: ALT, AST, CRP and HGB at all scheduled visits. Approximately 10–15 mL of blood is collected at each laboratory assessment. Enter the laboratory result and unit as reported by the laboratory.

Test	Unit	Screening	Baseline	Week 4	Week 8	Week 12	Follow-up
ALT	U/L	_____	_____	_____	_____	_____	_____
AST	U/L	_____	_____	_____	_____	_____	_____
CRP	mg/L	_____	_____	_____	_____	_____	_____
HGB	g/dL	_____	_____	_____	_____	_____	_____

For each result: collection date ____/____/____ clinically significant? ☐ No ☐ Yes repeat required? ☐ No ☐ Yes Investigator initials:

8. Randomization / treatment assignment

Randomization occurs at Baseline (Day 1) after eligibility confirmation. The study is double-blind and approximately 1:1:1.

Field	Entry
Randomization date	____/____/____
Randomization number	_____
Treatment assignment (authorized users only)	☐ Drug A 200 mg ☐ Drug B 300 mg ☐ Placebo
Blinding maintained?	☐ Yes ☐ No
Emergency unblinding required?	☐ No ☐ Yes — document reason and date: _____

9. Study intervention administration

Visit	Date	Treatment/dose	Dose unit	Form	Frequency	Route	Administration status	Deviation/comment
Baseline	____/____/____	_____	mg	Tablet	Q4W	Oral	☐ Given ☐ Not given	_____
Week 4	____/____/____	_____	mg	Tablet	Q4W	Oral	☐ Given ☐ Not given	_____
Week 8	____/____/____	_____	mg	Tablet	Q4W	Oral	☐ Given ☐ Not given	_____
Week 12	____/____/____	_____	mg	Tablet	Q4W	Oral	☐ Given ☐ Not given	_____

10. Adverse events

Capture AEs from first dose through follow-up. The protocol requires onset/resolution, severity, seriousness, relationship, action taken, treatment, and outcome. Continue follow-up until resolution/stabilization or another appropriate clinical outcome.

AE no.	Event/diagnosis/symptoms	Start date/time	Stop date/time	Severity	Serious?	Relationship	Action taken	Outcome
1	_____	____/____/____ —:—	____/____/____ —:—	☐ Mild ☐ Moderate ☐ Severe	☐ No ☐ Yes	☐ Definitely ☐ Probably ☐ Potentially ☐ Unlikely ☐ Not related	_____	_____
2	_____	____/____/____ —:—	____/____/____ —:—	☐ Mild ☐ Moderate ☐ Severe	☐ No ☐ Yes	☐ Definitely ☐ Probably ☐ Potentially ☐ Unlikely ☐ Not related	_____	_____
3	_____	____/____/____ —:—	____/____/____ —:—	☐ Mild ☐ Moderate ☐ Severe	☐ No ☐ Yes	☐ Definitely ☐ Probably ☐ Potentially ☐ Unlikely ☐ Not related	_____	_____

If SAE: hospitalization? ☐ No ☐ Yes Death? ☐ No ☐ Yes Immediate reporting required? ☐ No ☐ Yes Treatment withdrawn due to AE? ☐ No ☐ Yes

11. Protocol deviations/missed visits

Deviation/missed visit	Scheduled visit	Date	Reason/description	Impact/action
☐ Missed visit	☐ Week 4 ☐ Week 8 ☐	____/____/____	_____	_____

	Week 12 ☐ Follow-up			
☐ Other deviation		___/___/___		

12. End of study/off-study

Field	Entry
Study completion status	☐ Completed ☐ Discontinued early ☐ Lost to follow-up ☐ Withdrawn consent ☐ Death ☐ Other
Date off study	___/___/___
Date last study intervention	___/___/___
Primary reason for discontinuation	
Final follow-up completed?	☐ Yes ☐ No

13. Investigator confirmation

I confirm that the information recorded in this eCRF is complete and accurate to the best of my knowledge and that the participant was managed in accordance with the protocol and applicable procedures.

Investigator / delegated person	Signature	Date
		___/___/___
